

## **CHESHIRE WEST AND CHESTER COUNCIL COMMUNITY SPEED MANAGEMENT**

### **Speed Indicator Device/Speed Radar Device Public Information Flyer**

Dear Sir / Madam

The person(s) you have approached are working under the direction of Cheshire West and Chester Council Road Safety Unit as community volunteers operating a speed indicator device (SID) or Speed Radar Device.

SID is an educational tool that informs drivers of their speed. If a driver's speed is within the posted limit, SID rewards them with a smiley face. If their speed is higher than the limit, SID displays a frowning face to remind the driver that they should slow down. It is a non-threatening way of reminding drivers of the speed limit for the benefit of community safety and quality of life. SID and Speed Radar Devices are NOT a speed cameras. They do not take any pictures or record number plates.

The volunteers are under instruction not to get involved in any disputes over their activity. If you wish to raise any issues or you have any concerns, please contact Community Speed Management at Cheshire West and Chester Councils Road Safety Unit.

Tel: 0300 123 7036
